CORTINA SAFETY PRODUCTS

Solutions for every workzone...

Whether your workzone is along a stretch of highway, airport, parade route, distribution center, hotel lobby, parking facility, amusement park or any other workzone where vehicular or pedestrian traffic is present, Cortina has the People, Products and Processes that set us apart from the competition!

People - A privately held American company since 1969. Our people make the difference. For generations Cortina has grown from a small manufacturer of plastic products into a leading manufacturer of products for consumer, industrial, commercial, heavy duty truck and lawn and garden markets.

Products - With North America's broadest offering of safety product solutions, we are your one source for workzone products designed to meet a wide variety of application requirements. We set the standard for "Best-in-Class" with products like; TrailBoss™, Plastx™, Quadra Flex™, Lamba™, Pack N Pop™, Bargard™, TrailBlazer™, Grip N Go™, EZ-Grab™, and Strato-Lite™.

Processes – Investments in technology, equipment, and software allow us to control all aspects of the product cycle. Our ISO Certified, vertically integrated manufacturing facilities and state-of-the-art distribution center ensure products are made to exacting standards and delivered on time.

This catalog represents our current product offering and is intended as a resource guide in helping you identify and select the right solutions for your specific workzone. Put our nearly 50 years of experience to work for you.

BARGARD™ protective covers are approved for use as impalement protection (for rebar or similar protruding objects) at grade or above grade when used in accordance with the Installation Instructions. Please contact the manufacturer or distributor if the Installation Instructions are missing or illegible. Failure to properly install protective covers will significantly decrease any impalement protection that may otherwise be provided and may result in serious injury or death. Inspect for damage prior to use; do not use damaged or defective protective covers. Discard protective cover if positioning fins are missing or damaged. Protective covers are not approved for use for fall distances greater than 7 feet 6 inches, or as protection for weights above 250 pounds.
